

As a concerned citizen, I am writing you to express my opposition to proposed Lower Power FM (LPFM) stations that could possibly take the place of a very important radio station that my family and I listen to via a FM translator station, namely, K-LOVE Radio (KLVW 88.7 Midland-Odessa TX, 89.7 Big Spring TX & 98.3 Hobbs NM). My family and I receive tremendous positive value from this station and I don't want this legislation to prevent us from receiving it in the future. K-LOVE Radio is serving our local public interest in a tremendous way and is financially supported by its local audience as a listener supported radio station. If you want to create LPFMs, that's fine, but not at the cost of us losing this translator station that means a great deal to us personally. I feel that these existing translator stations should take precedence over any newly formed LPFMs & should be located on the radio frequency spectrum in a way that would not interfere with this stations local radio signal. Thank you for your consideration of my petition.
